Members of the Township Board **Township of Armada** Macomb County, Michigan

Members of the Township Board:

In accordance with your request, I have made an examination of the financial statements of Armada Township for the fiscal year ended March 31, 2007. During the course of my examination, the following items came to my attention:

- Accounting procedures need to be put in place to reconcile the Accu-Med accounts receivable with the accounts receivable
 maintained in QuickBooks. All old inactive accounts receivables in QuickBooks should be written off to bad debts. An exact
 list of accounts receivable should then be established and maintained on a perpetual basis so that all the accounts receivable in
 QuickBooks represent the actual accounts receivable per Accu-Med adjusted for those in collection by the Township and their
 attorney.
- 2. The Trust and Agency Fund collects performance bonds and advance payments for development costs. This represents money held in trust for others. The Township needs to establish an exact list of the amounts of the various bonds and to whom it is due. The Township needs accounting procedures that would maintain this list of bonds due on an ongoing basis.

From an overall viewpoint, the Armada Township is in good financial condition. I thank the Township officials for the cooperation I received in the completion of this examination. Should you have any questions in connection with the above, please contact me at your convenience.

Sincerely,

Lehn King Lehn L. King

Members of the Township Board **Armada Township** Macomb County, Michigan

Independent Auditor's Report

I have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Township of Armada, Michigan as of and for the year ended March 31, 2007, which collectively comprise the Township's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Township of Armada, Michigan's management. My responsibility is to express opinions on these financial statements based on my audit.

I conducted the audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that the audit provides a reasonable basis for my opinions.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Township of Armada, Michigan as of March 31, 2007, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis, and the budgetary comparison schedules, as identified in the table of contents, are not a required part of the basic financial statements but are supplemental information required by the Governmental Accounting Standards Board. I have applied certain limited procedures, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, I did not audit the information and express no opinion on it.

The Audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township of Armada, Michigan's basic financial statements. The accompanying other supplemental information, as identified in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements. The other supplemental information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

As described in Note 1, the Township implemented a new financial reporting model, as required by the provisions of GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, and related statements, as of April 1, 2004.

Notes to the Financial Statements For The Year Ended March 31, 2007

The accounting methods and procedures adopted by the Township of Armada, Macomb County, Michigan, conform to generally accepted accounting principles as applied to governmental entities. The following notes to the financial statements are an integral part of the Township's Comprehensive Annual Financial Report.

1. Summary of Significant Accounting Policies

Financial Reporting Entity

The Township of Armada was incorporated under the laws of the State of Michigan and operates as a General Law Township, with a Township Board form of government. As required by generally accepted accounting principles, the financial statements of the reporting entity include those of the Township of Armada (the primary government) and its component units. There are no component units to be included in these financial statements as defined by generally accepted accounting principles..

Government-wide and Fund Statements Fund

The Government-wide Financial Statements (i.e., the Statement of Net Assets (Deficit) and the Statement of Activities) report information on all the nonfiduciary activities of the Township (the primary government). The effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function (governmental activities) or identifiable activity (business-type activities) are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or activity. Program revenues include: (1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or activity; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or activity. Taxes and other revenue items properly excluded from program revenues are reported as general revenue.

Separate financial statements are provided for governmental funds, and fiduciary funds, even though the latter are excluded from the Government-wide Financial Statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

The Township reports the following major governmental funds:

General Fund - The General Fund is the Township's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Fire Fund – The Fire Fund accounts for the Township's fire operating activity.

Improvement Revolving Fund – The Improvement Revolving Fund accounts for the funding of significant improvement projects.

Skate Park Fund – The Skate Park Fund accounts for the funding for the future construction of a skate park.

Additionally, the Township reports the following fund types:

Trust & Agency Fund - The Trust & Agency Funds account for assets held by the Township in a trustee capacity or as an agent for individuals, organizations, or other governments.

Notes to the Financial Statements For The Year Ended March 31, 2007

Measurement Focus and Basis of Accounting

The Government-wide Financial Statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental Fund Financial Statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized in the accounting period in which they become susceptible to accrual - that is, when they become both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period, generally collected within 60 days of the end of the current fiscal period. Revenues susceptible to accrual include property taxes, intergovernmental revenues, special assessments, licenses, charges for services, and interest. All other revenue items are considered to be available only when cash is received by the Township. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, and claims and judgments are recorded only when payment is due.

Cash - The Township does not pool cash resources of its various funds to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the cash accounts is available to meet current operating requirements. Cash in excess of current requirements is invested in various interest-bearing securities and disclosed as part of the Township's investments.

Investments - Debt securities are valued at cost since it is generally the policy of the Township to hold such investments until they mature.

Due to and Due From Other Funds - Interfund receivables and payables arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed. Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances."

Property Tax Revenues - Property taxes are levied on December 1 based on the assessed value of property as listed on the previous December 31. Assessed values are an approximation of market value. A revaluation of all real property must be made every year.

Vacation, Sick Leave, & Other Compensated Absences - The Township does not have any contracts or agreements with its employees or elected officials which require the payment of compensation during absence from duty nor do any such benefits vest to the right of the employee or elected official.

Capital Assets - Capital assets, which include buildings and equipment, are reported in the applicable governmental column in the Government-wide Financial Statements. Capital assets are defined by the Township as assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Capital assets are depreciated using the straight-line method over the following useful lives:

Infrastructure40 yearsBuildings & Building Improvements20 to 40 yearsMachinery & Equipment3 to 20 years

Notes to the Financial Statements For The Year Ended March 31, 2007

Long-Term Obligations - In the Government-wide Financial Statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net assets. Bond premiums and discounts, issuance costs, and the deferred amount on refunding are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount and deferred amount on refunding. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Fund Equity - In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Accounting Changes

GASB Statement No. 34 – Effective April 1, 2004, the Township implemented the provisions of Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments* (GASB No. 34). Changes to the Township's financial statements as a result of GASB No. 34 are as follows:

- A management's discussion and analysis (MD&A) section providing analysis of the Township's overall financial position and results of operations has been included.
- Government-wide Financial Statements (statement of net assets (deficit) and statement of activities) prepared using full accrual accounting for all of the Township's activities have been provided.
- Capital assets in the governmental activities column of the statement of net assets (deficit) includes assets not
 previously accounted for by the Township as well as assets previously reported in the General Fixed Assets
 Account Group. In addition, the governmental activities column includes bonds and other long-term
 obligations previously reported in the General Long-term Debt Account Group.
- The fund financial statements focus on major funds rather than fund types.

Notes to the Financial Statements For The Year Ended March 31, 2007

2. Stewardship, Compliance, and Accountability

Budgetary Information

The Township is legally subject to the budgetary control requirements of State of Michigan P.A. 621 of 1978 (the Uniform Budgeting Act). The following statements represent a brief synopsis of the major provisions of this Act:

- 1. Budgets must be adopted for the General Fund and Special Revenue Funds.
- 2. The budgets must be balanced. The balanced budget may include a contribution to or appropriation from fund balance.
- 3. The budgets must be amended when necessary.
- 4. Debt cannot be entered into unless permitted by law.
- 5. Expenditures cannot exceed budget appropriations.
- 6. Expenditures cannot be made unless authorized in the budget.
- 7. Public hearings must be held before budget adoptions.

In the body of the financial statements, the Township actual expenditures and budgeted expenditures for the budgetary funds have been shown on a functional basis. The budget is used by the Township Board as a management tool during the year for all budgetary funds. The budgets are adopted on a cash basis, which is not consistent with generally accepted accounting principles. Budgetary control is exercised at the departmental level. Budgets for the General Fund and the Special Revenue Funds are presented in the required supplemental information.

During the year ended March 31, 2007, the Township incurred expenditures in certain budgetary funds which were in excess of the amounts appropriated, as follows:

	App	Total ropriations			Budget <u>ariance</u>
General Fund					
Recreation & Culture	\$	55,815	\$ 69,425	\$	13,610

Notes to the Financial Statements For The Year Ended March 31, 2007

State Construction Code Act – The Township tracks the results of building department operations in the General Fund. In accordance with Michigan Public Act 245 of 1999, the Township is required to maintain an accounting system that separately accumulated revenues and expenditures related to the building department function. As required under the provision of the Act, the Township adopted this accounting treatment effective January 1, 2000. The results of building department operations for the year ended March 31, 2007 are as follows:

Accumulated Expenditures over Revenues - April 1, 2006		\$ (30,635)
Current Year Building Permit Revenue Current Year Expenditures	\$ 34,246 50,855	
Current Year Excess of Expenditures over Revenue		 (16,609)
Accumulated Expenditures over Revenues - March 31, 2007		\$ (47,244)

3. Deposits and Investments

Michigan Compiled Laws, Section 129.91, authorizes the Local Unit to deposit and invest in the accounts of Federally insured banks, credit unions, and savings and loan associations which have an office in Michigan. The local unit is allowed to invest in bonds, securities and other direct obligations of the United States, or any agency or instrumentality of the United States; United States government or Federal agency obligation repurchase agreements; bankers' acceptance of United States banks; commercial paper rated within the two highest classifications which mature not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions which are rated investment grade; and mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan.

The Township of Armada's deposits and investment policies are in accordance with statutory authority.

At year end, the deposits and investments were reported in the basic financial statements in the following categories:

	Governmental Activities	Fiduciary Funds	Total Primary Government
Cash & Cash Equivalents	\$ 1,865,942	\$ 351,903	\$ 2,217,845

The breakdown between deposits and investments is as follows:

	Primary		
	Government		
Bank Deposits (Checking & Savings Accounts, CDs)	2,217,845		

The bank balance of the Township's deposits is \$2,217,845, of which \$410,170 is covered by federal depository insurance. The remainder was uninsured and uncollateralized. The Township believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a results, the Township evaluates each financial institution with which it deposits Township funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Notes to the Financial Statements For The Year Ended March 31, 2007

4. Capital Assets

Capital assets activity of the Township's governmental activities was as follows:

	Balance April 1, 2006		A	Additions	Disposals & Adjustments		Balance March 31, 2007	
Governmental Activities:								
Capital Assets Not Beind Depreciated								
Land	\$	285,349	\$	-	\$	-	\$	285,349
Capital Assets Being Depreciated:								
Buildings & Improvements	\$	1,120,808	\$	32,251	\$	-	\$	1,153,059
Machinery & Equipment		2,056,462		35,689		-		2,092,151
Office Furnishings		33,630				-		33,630
Subtotal		3,210,900		67,940		-		3,278,840
Accumulated Depreciation:								
Buildings & Improvements		616,942		26,327		-		643,269
Machinery & Equipment		1,518,973		86,093		-		1,605,066
Office Furnishings		20,829		2,047		-		22,876
Subtotal		2,156,744		114,467				2,271,211
Net Capital Assets Being Depreciated	\$	1,054,156	\$	(46,527)	\$	-	\$	1,007,629
Net Capital Assets	\$	1,339,505	\$	(46,527)	\$		\$	1,292,978

Depreciation expense was charged to programs of the primary government as follows:

Governmental Activities:	
General Government	\$ 13,725
Public Safety	91,515
Public Works	4,396
Recreation & Culture	 4,831
Total Governmental Activities	\$ 114,467

Notes to the Financial Statements For The Year Ended March 31, 2007

5. Interfund Receivables, Payables, & Transfers

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "Due from other funds" or "Due to other funds" on the balance sheet. The amounts of interfund receivables and payables are as follows:

	D	ue From			Due To
	Ot	her Funds		Ot	her Funds
General Fund	\$	6,224	Current Tax Fund	\$	6,224
General Fund		85,732	Fire Fund		85,732
General Fund		3,298	Trust & Agency Fund		3,298
Improvement Revolving Fund		179,516	General Fund		179,516
Total	\$	274,770		\$	274,770

The balance owing from the Fire Fund to the General Fund resulted from a loan made for a new fire engine in the fiscal year ended March 31, 2004.

The balance owing from the General Fund to the Capital Improvement Fund resulted from a loan made for the purchase of land in the fiscal year ended March 31, 2003.

6. Deficit Fund Balance or Retained Earnings Balances of Individual Funds

None

7. Risk Management

The Township is exposed to various risks of loss related to property loss, torts, errors and omissions, employee injuries, as well as medical and workman's compensation benefits provided to employees. The Township has purchased commercial insurance for the various risks of loss stated above.

Settled claims for the commercial insurance have not exceeded the amount of coverage in any of the past three years. There was no reduction in coverage's obtained through commercial insurance during the past year.
